App Service Plan size translation
- 1 = Small = 1 Core + 1.75 GB RAM
- 2 = Medium = 2 Core + 3.5 GB RAM
- 3 = Large = 4 Core + 7GB RAM

Free (F)
- Sizes: F1
- CPU: 60 CPU minutes / day
- Storage: 1GB
- 32 bit application
- Debugger support: 1 connection

Shared (D)
- Sizes: D1
- CPU: 240 CPU minutes / day
- Storage: 1GB
- Custom domains
- 32 bit application
- Debugger support: 1 connection

Basic (B)
- Sizes: B1, B2, B3
- Storage: 10GB
- Custom domains
- SSL support (SNI SSL only)
- Scale out: 3 instances (manual scale only!)
- 32 bit and 64 bit application
- Debugger support: 5 connections
- SLA: 99.95%
- Hybrid Connections: 5 connections

Standard (S)
- Sizes: S1, S2, S3
- Storage: 50GB
- Custom domains
- SSL support (SNI SSL + IP SSL)
- Scale out: 10 instances (auto scale)
- Daily backup
- Deployment slots: 5 (staged deployment)
- Traffic manager support
- 32 bit and 64 bit application
- Debugger support: 5 connections
- SLA: 99.95%
- Hybrid Connections: 25 connections

Premium (P)
- Sizes: P1, P2, P3
- Storage: 250GB
- Custom domains
- SSL support (SNI SSL + IP SSL)
- Scale out: 20 instances (auto scale)
- Daily backup: 50 times
- Deployment slots: 20 (staged deployment)
- Traffic manager support
- 32 bit and 64 bit application
- Debugger support 5 connections
- SLA: 99.95%
- Hybrid Connections: 200 connections
